RAP**ID**CARD ELITE

PAIRS PERFECTLY WITH **evoLIS**

Flexible & Reliable
ID SOFTWARE & PRINTER SOLUTIONS
for your Campus

Your campus card is not just your photo ID, it is a multifunctional card with visual and non-visual security features built-in and is used by your students every day. RapIDcard Elite software paired with an Evolis card printer can get your card production job done from start to finish quickly. This open system integrates easily with the campus solutions you may already use such as CBORD, Heartland, Blackboard, Atrium, and more.

Complete Credentials

Our flexible ID solutions print cards that communicate with the systems you already use for library, dining, vending, commerce, access control and more.

Printer Integration

Our RapIDcard Elite software integrates with popular Evolis printers featuring smart card technology.

Credit Card Encoding

ID/ISO/LIB number module provides actual credit card encoding. Smoothly handle credit card number generation without duplicates.

Improved Security

Ability to produce a wide variety of badges for campus security including student IDs, faculty IDs, cafeteria cards and visitor badges.
